PROFESSIONAL SUMMARY

Information Technology graduate (Magna Cum Laude) with hands-on experience in UI/UX design, frontend development, and manual quality testing. Skilled in Figma, JavaScript, HTML5, and CSS3, with deployment experience via Git, GitHub, and Vercel, and currently building React proficiency. Experienced in manual testing and defect identification through hardware-software integration work, with strong attention to detail. Fast learner seeking growth in UI/UX design, frontend development, or QA/software testing.

CORE SKILLS

Design & UX: UI/UX Design, Wireframing & Prototyping, Usability Testing, Responsive Web Design, Figma, Adobe Photoshop, Adobe Illustrator, Canva
QA & Testing: Manual Testing, Functional & Integration Testing, Defect/Bug Identification, Test Documentation, Attention to Detail
Development: JavaScript, HTML5, CSS3, Java (Basic), MySQL, XAMPP | Currently Learning: React
Tools & Platforms: Git, GitHub, Vercel, XAMPP
Core Competencies: Technical Support, Cross-Functional Collaboration, Problem Solving, Adaptability & Fast Learning

EDUCATION

Bachelor of Science in Information Technology August 2022 – June 2026
Quezon City University | Quirino Hwy, Novaliches, Quezon City
Magna Cum Laude | GPA: 1.34 (Latin Honors)

PROFESSIONAL EXPERIENCE

IT Operations Intern | Concentrix Philippines – ETON September 2025 – February 2026

- Supported daily IT operations in a high-volume corporate environment by diagnosing and resolving hardware, software, and network issues, minimizing disruption to business workflows.
- Applied structured troubleshooting methods in collaboration with the IT team to resolve system-related tickets efficiently and restore functionality for end users.
- Coordinated with staff and IT leads to prioritize incoming issues, strengthening technical support, teamwork, and workplace communication skills in a fast-paced operational setting.

Graphics Artist | TAPP.PH Printing Services September 2023 – September 2024

- Designed branded layouts and marketing materials for multiple concurrent client projects, translating client briefs into polished, on-brand visual deliverables.
- Managed client communication and revision cycles independently, ensuring visual consistency and on-time delivery across all assigned projects.
- Built foundational client relations, time management, and visual design skills that transfer directly to UI/UX design and creative production work.

PROJECTS

Head UI/UX Designer & Hardware Developer Lead | TRASHURE: Automated Recyclable Waste Verification with Points Allocation and Reward System

- Identified the need for an intuitive, reward-based interface to encourage proper recyclable waste disposal, and led the UI/UX design and hardware planning to address it.
- Manually tested hardware-software integration points throughout development, verifying reward-system logic and identifying usability issues prior to final demonstration.
- Collaborated with a cross-functional team of developers and researchers, contributing to a more organized workflow and an approximately 30% improvement in usability during testing and evaluation.

Frontend Developer & UI/UX Designer | Personal Portfolio Website — JavaScript, HTML5, CSS3, React (in progress), Git, Vercel

- Needed a professional platform to showcase technical work; designed and developed a fully responsive portfolio website using JavaScript, HTML, and CSS, while applying React fundamentals as a learning exercise.
- Built and deployed the site independently using GitHub for version control and Vercel for continuous deployment, applying agentic AI and vibe-coding workflows to accelerate development.
- Delivered a polished, accessible showcase of 5+ projects, improving cross-device responsiveness and demonstrating growing frontend development capability.

CERTIFICATIONS & TRAINING

IBM – UX Design Fundamentals (Apr 2026) • IBM – Web Dev Fundamentals (Jul 2026) • IBM – AI Fundamentals (Mar 2026)
DataCamp – AI Fundamentals (May 2026) • AWS CloudStart Workshop (Feb 2026) • Cisco – Network Defense (Mar 2026)
Cisco – Cybersecurity Intro (Feb 2026) • Cisco – Data Science Intro (Feb 2026)
